REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Gallo et al (US Patent No. 4,971,899) disclose a compound within the scope of the invention as density enhancer for direct positive photographic film, but fails to teach or suggest the benefit of the use thereof in thermographic material or photothermographic material having non-photosensitive source of reducible silver ion. such as improving of its image density or shortened the processing time and temperature found in the present specification disclosure. Johns et al (US Patent No. 4,631,138) discloses triazine thione compound having formula within the scope of formula (I) claimed in the present claimed invention as corrosion inhibitors for ferrous metal, but fails to teach or fairly suggest the utility thereof in the heat developable composition or heat developable material having non-photosensitive source of reducible silver ion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
